## **EQUAL EMPLOYMENT OPPORTUNITY**

In the event of the contractor's noncompliance with any provision of this Equal Employment Opportunity Clause, the Illinois Fair Employment Practices Act or the Fair Employment Practices Commission's Rules and Regulations for Public Contracts, the contractor may be declared non-responsible and therefore ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivision or municipal corporations, and the contract may be canceled or avoided in whole or in part, and such other sanctions or penalties may be imposed or remedies involved as provided by statute or regulation.

During the performance of this contract the contractor agrees as follows:

- (1) That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin or ancestry, and further, that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.
- (2) That, if it hires additional employees in order to perform this contract, or any portion hereof, it will determine the availability (in accordance with the Commission's Rules and Regulations for Public Contracts) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.

If any such labor organization or representative fails or refuses to cooperate with the contractor in its efforts to comply with such Act and Rules and Regulations, the contractor will promptly so notify the Illinois Fair Employment Practices Commission and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligations hereunder.
- (5) That it will submit reports as required by the Illinois Fair Employment Practices Commission's Rules and Regulations for Public Contracts, furnish all relevant information as may from time to time be requested by the Commission or the contracting agency, and in all respects comply with the Illinois Fair Employment Practices Act and the Commission's Rules and Regulations for Public Contracts so that such provisions will be binding upon every such subcontractor; and that it will also so include the provisions of paragraphs 1, 5, 6 and 7 in every supply subcontract as defined in Section 2.10 (a) of the Commission's Rules and Regulations for Public Contracts so that such provisions will be binding upon every such subcontractor. In the same manner as with other provisions of this contract, the contractor will be liable for compliance with applicable provisions of this clause by all its subcontractors; and further it will promptly notify the contracting agency and the Illinois Fair Employment Practices Commission in the event any subcontractor fails or refuses to comply therewith. In addition, no contractor will utilize any subcontractor declared by the Commission to be non-responsible and therefore ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

With respect to the two types of subcontracts referred to under paragraph 7 of the Equal Employment Opportunity Clause above, following is an excerpt of Section 2 of the FEPC's Rules and Regulations for Public Contracts:

Section 2.10. The term Subcontracts means any agreement, arrangement or understanding, written or otherwise, between a contractor and any person (in which the parties do not stand in the relationship of any employer and an employee):

## Explanations

DUPAGE COUNTY

IRON WORKERS AND FENCE ERECTOR (WEST) - West of Route 53.

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

### EXPLANATION OF CLASSES

In no case shall such consent relieve the successful Bidder from his/her obligations or change the terms of the contract.

Any and all subcontractors shall be bound by contract to the same terms as the successful Bidder. Prior to commencing any work, subcontractors must place on file with the Village a certificate of insurance as outlined under "insurance".

The successful Bidder shall not transfer or assign any contract funds or claims due or to become due without the written approval of the Village Administrator having first been obtained.

During the performance of this contract, the contractor agrees as follows:

1. That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, marital status, national origin, or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from the military service; and further that it will examine all job classifications to determine if minority persons or women are under-utilized and will take appropriate affirmative action to rectify any such underutilization.
2. That, if it hires additional employees in order to perform this contract or any portion thereof, it will determine the availability (in accordance with the department's rules and regulations) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not under utilized.
3. That, in all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, or an unfavorable discharge from military service.
4. That it will send to each labor organization or representative of workers with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor

organization or representative of the contractor's obligations under the Illinois Human Rights Act and the Department's Rules and Regulations.

If any such labor organization or representative fails or refuses to cooperate with the contractor in its efforts to comply with such act and rules and regulations, the contractor will promptly so notify the department and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligations thereunder.

5. That it will submit reports as required by the department's rules and regulations, furnish all relevant information as may from time to time be requested by the department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and the Department's rules and regulations.

7. That it will include verbatim or by reference the provisions of this clause in every subcontract it awards under which any portion of the contract obligations are undertaken or assumed, so that such provisions will be binding upon such subcontractor. In the same manner as with other provisions of this contract, the contractor will be liable for compliance with applicable provisions of this clause by such subcontractors; and further it will promptly notify the contracting agency and the department in the event any subcontractor fails or refuses to comply therewith. In addition, the contractor will not utilize any subcontractor declared by the Illinois Human Rights Commission to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

#### **SUBCONTRACTS**

Each public subcontractor shall in turn include the equal employment opportunity clause set forth within these rules and regulations in each of its subcontracts under which any portion of the contract obligations are undertaken or assumed, said inclusion to be either verbatim or by reference so that the provisions of the clause will be binding upon such subcontractors.

#### **CONTRACTS OR SUBCONTRACTS WITH RELIGIOUS ENTITIES**

**PART I - GENERAL**

**1.01 DESCRIPTION**

This work includes, but is not limited to, furnishing and transporting all materials, equipment, and labor necessary for:

- A. Hydraulic suction dredging of approximately 1,300 cubic yards (measured in-situ) of soft accumulated sediment in areas shown to achieve plan depths for pond, which represent the original hard, excavated bottom depths underlying the sediment. The muck sediment layer consists of fine grained silts, clays and organic material that have accumulated on the pond bottom. The contractor shall examine the site and the character of the sediment to be dredged prior to submitting a bid.
- B. Use of geotextile tubes and construction of perimeter water trapping system to discharge all effluent discharge water from tubes back to lake through existing storm drain as shown.
- C. It is estimated that approximately 200 total linear feet of 60 ft. circumference tubes will be required to store the estimated 1,300 to 1,400 cubic yards of soft sediment. The northernmost tube location can accommodate an 80 ft. long tube and the southeastern location can accommodate 120 ft. or more as required (see plans). The contractor is required to perform a hanging bag test for the sediment and pond water to more accurately determine the lengths required.
- D. It is anticipated that an environmentally friendly flocculant or polymer will be required to facilitate effective dewatering while dredging. The contractor shall provide MSDS and acceptable toxicity test results for any flocculant to be used.

All in accordance with these special provisions, as shown on the plans, and to the satisfaction of the Owner.

**PART II - PRODUCTS**

**2.01 MATERIALS**

A. Dredged Materials

Satisfactory soil materials shall be determined by the Owner, and shall be used on the site BY OTHERS as shown on the plans and/or as directed by the Owner to the satisfaction of the Owner.

4. Prepare and install geotextile tubes and perimeter drainage barriers to direct all drain water back into the pond at one inlet point in the existing storm sewer system as shown.
5. Remove and protect existing aerator diffusers, weighted air hose and pump equipment on the shoreline.
6. Contractor cannot start until receipt of permit, and shall adhere to all requirements.

**B. Site Dredging**

1. Inspection Dive – the contractor shall perform an inspection dive, or survey by boat to identify any problem areas, debris, or other potential problems for the dredging – cost incidental to contract.
2. Contractor shall excavate the existing muck (soft sediment) layer from the bottom of the pond in accordance with the plans. This layer ranges from 0.2' to 1.5' and generally averages 1.2' according to pre-dredge measurements.
3. All dredged sediment shall be pumped into polypropylene geotextile tubes placed in the areas as located on the plan. All effluent water discharged from tubes shall be routed into the existing storm sewer feeding back into the pond.
4. Erect construction fencing around drains and geotextile tubes to keep patrons away from the dewatering area during the process.

**C. Drying of removed sediment**

1. The contractor shall dry the sediment for a minimum of 45 days to reach suitable moisture that will enable the materials to be spread and graded as shown on the plans. If necessary, the tubes may be left to overwinter.
2. The Contractor shall maintain and repair bags or drainage systems for the life of the project should they be damaged by vandalism or use.
3. Spreading of dried soils and removal of geotextile tubes shall be performed by others in the spring of 2015.
