REGULAR MEETING OF THE PARKS AND RECREATION COMMISSION
OF THE VILLAGE OF WILLOWBROOK TO BE HELD ON TUESDAY,
JANUARY 10, 2017, AT 7:00 P.M. AT THE VILLAGE HALL, 835 MIDWAY
DRIVE, IN THE VILLAGE OF WILLOWBROOK, DUPAGE COUNTY,
ILLINOIS.

1. CALL TO ORDER
2. ROLL CALL
3. APPROVAL OF MINUTES:
 - a) December 6, 2016 Regular Meeting of the Parks & Recreation Commission
4. DISCUSSION – Willow Pond Park Renovation Project
5. DISCUSSION – Special Event Updates / Planning:
 - a) Children's Holiday Party, HSHS, December 11, 2016
 - b) Easter Egg Hunt, Saturday, April 15, 2017
 - c) 2017 Spring Fling, May 7, 2017
6. VISITOR'S BUSINESS – Public comment is limited to three (3) minutes per person
7. COMMUNICATIONS
8. ADJOURNMENT

Proud Member of the
Illinois Route 66 Scenic Byway

MINUTES OF THE REGULAR MEETING OF THE PARKS AND RECREATION COMMISSION
HELD ON TUESDAY, DECEMBER 6, 2016, AT THE VILLAGE HALL, 835 MIDWAY DRIVE,
WILLOWBROOK, DUPAGE COUNTY, ILLINOIS

1. CALL TO ORDER

Commissioner Stetina called the meeting to order at the hour of 7:05 p.m.

2. ROLL CALL

Those present at roll call were Commissioners Catherine Kaczmarek, Ronald Kanaverskis, Laurie Landsman, Carol Lazarski, and Doug Stetina.

ABSENT: Chairman Richard Cobb, Commissioners Lorraine Grimsby, Robert Pionke, and Rene Schuurman.

Also present were Village Trustee Sue Berglund, Temporary Interim Superintendent of Parks and Recreation John Fenske, and Village Intern Tiffany Kolodziej.

A QUORUM WAS DECLARED

3. APPROVAL OF MINUTES – NOVEMBER 1, 2016

The Commission reviewed the November 1, 2016 minutes.

MOTION: A Motion was made by Commissioner Lazarski and seconded by Commissioner Landsman to approve the November 1, 2016 minutes as presented.

ROLL CALL VOTE: AYES: Commissioners Kaczmarek, Kanaverskis, Landsman, Lazarski, and Stetina.
NAYS: None. ABSENT: Chairman Cobb, Commissioners Grimsby, Pionke, and Schuurman.

MOTION DECLARED CARRIED

4. DISCUSSION – ORGANIC LAWN CARE – END OF SEASON ANALYSIS

Administrative Intern Kolodziej related that Pure Prairie Organic was awarded the lawn care contract for village-owned property. Their services began in May of 2016. Five (5) applications were administered between May – October. No negative comments were received in reference to the results. Administrative Intern Kolodziej stated that there was no significant difference between the chemically-treated lawns and organically-treated lawns.

The commissioners requested that public notification be made in reference to the new lawn care program.

5. REPORT – WILLOW POND PARK RENOVATION – STATUS UPDATE

Interim Superintendent Fenske advised that cost for the park renovations have increased since the original bid was awarded to Clauss Brothers, Inc. In order to bring down some of the costs, Village Administrator Halik and the consultant from LandTech Design has changed some of the materials used in different areas of the park, removed a couple of parking spots, reducing the footprint of the playground (not the actual structure), and changes to the shelter, benches, and restroom building.

The commissioners stated that they do not like losing any of the parking spots and asked that this item be reexamined.

6. DISCUSSION – SPECIAL EVENT UPDATES/PLANNING:

a. Children's Holiday Party, HSHS – December 11, 2016

Interim Superintendent Fenske stated that as of today's date, 86 children have been signed up for the party. To date, a little over \$3,300 in donations has been received from 25 sponsors. Expenses are \$4,966.51. This biggest expense this year was for the commemorative blankets.

Interim Superintendent Fenske related that he received a \$50 gift card from Target and used it to purchase paper goods for the party. Chick-fil-A is donating lemonade and iced tea. Interim Superintendent Fenske stated that he also received a \$25 gift card from Costco and will purchase bottled water with it. Chicken Basket is again donating chicken legs. 7-11 is donating pizza, coffee and hot chocolate. Tommy R's is donating sandwiches. Interim Superintendent Fenske advised that he also received gift certificates from Hinsdale Nursery, LaVida Massage, Massage Luxe, West Swim Club, and Pure Barre which will be raffled off to attendees.

Interim Superintendent Fenske that there will be volunteers from the Hinsdale South Key Club and National Honor Society to help.

Interim Superintendent Fenske stated that he will need help at the Village Hall prior to the party to load his car with the gifts and supplies.

b. 2017 Spring Fling – May 7, 2017

Interim Superintendent Fenske related that discussion on this item will be tabled until Commissioner Schuurman is in attendance. Tentative benefactors for donations will be Gateway and Kiwanis.

7. VISITORS' BUSINESS

None presented.

8. COMMUNICATIONS

Interim Superintendent Fenske advised that 2017 will be the 40th Anniversary for the Parks Department. He related that he would like to promote a picnic or concert in the park birthday party. Interim Superintendent Fenske stated that he received a letter from the West Suburban Concert band advised that they would like to perform at the event.

9. ADJOURNMENT

MOTION: Made by Commissioner Landsman, seconded by Commissioner Kanaverskis to adjourn the meeting at the hour of 8:25 p.m.

ROLL CALL VOTE: AYES: Commissioners Kaczmarek, Kanaverskis, Landsman, Lazarski, and Stetina.
NAYS: None. ABSENT: Chairman Cobb, Commissioners Grimsby, Pionke, and Schuurman.

MOTION DECLARED CARRIED

PRESENTED, READ and APPROVED,

REPORT – WILLOW POND PARK RENOVATIONS – STATUS UPDATE

COMMISSION REVIEW

- ☒ Report
☐ Discussion
☐ Seeking Feedback

Meeting Date:

January 10, 2017

BACKGROUND

On March 3, 2015, staff opened sealed bids for a renovation of Willow Pond Park. The design of this renovation project was prepared by Mr. John Vann of LandTech Design, Ltd. At the time, the low bid was submitted by Clauss Brothers, Inc. in the total amount of \$822,292.93 (\$400,000 of this expense was to be funded through an OSLAD grant). The Village Board was prepared to award a construction contract to Claus Brothers at their March 23, 2015 meeting. However, on March 10, 2015, the Village received notice from the Illinois Department of Natural Resources (IDNR) that all state OSLAD grants had been suspended by order of the Governor. All work on this project was suspended until the grant was released by the state on August 15, 2016 – 17 months later.

STATUS UPDATE

Staff is currently working with Tod Stanton from Design Perspectives and Claus Brothers Construction to award a contract to enable this project to begin in late April/early Mach of 2017. Mr. Stanton is also coordinating this project with our grant administrator at the Illinois Department of Natural Resources (IDNR) as required by the OSLAD grant. At the present time, there are two primary issues to consider:

- 1) Updated pricing for the project came in at \$897,203.21, which is a \$74,910.28 increase from the previous bid price. The amount of the OSLAD grant (i.e., \$400,000) cannot be increased, even though the time delay in the suspension of the grant caused the cost increase. Staff has worked with both Claus Brothers and Design Perspectives to review the previous renovation design to identify potential areas for cost savings. A list of potential cost savings options compiled by Tod Stanton is attached. There may also be some additional SRA funding available that could be used the soften the reductions.
- 2) During our coordination of this project with the IDNR, we were advised that the IDNR must review and approve the design specifications for the playground components. Therefore, it is necessary to choose the final playground design and manufacturer, so that catalog cut sheets on all components can be sent to the IDNR. Attached, are the following playground proposals for consideration:
 - NuToys – Option 1 and Option 2
 - Play Illinois – Option 1 and Option 2
 - GameTime (aka., Cunningham Recreation)

STAFF RECOMMENDATION

Tod Stanton from Design Perspectives will be in attendance at the meeting to review the identified areas of cost savings and to present the various playground designs for consideration. Again, if we can successfully reduce the costs of more minor areas of the renovation plan while maintaining the basic design as a whole, our goal would be to award a construction contract to Claus Brother to complete the project. They would target the start of work to occur in late April of 2017 and the project should be complete sometime in mid-summer 2017.

Value Engineering Options Willow Pond Improvements November 14, 2016

	savings
1 Eliminate chain link protection fencing	\$ 1,925.00
2 Overall reduction of concrete flatwork and curb (approx. 725 sq.ft)	\$ 7,000.00

Dear Alann Petersen:

Play Illinois, LLC is delighted to provide Design Perspectives with this playground equipment proposal.

This design was developed with your specific needs in mind, and we look forward to discussing this project further with you to ensure your complete satisfaction. Play Illinois, LLC is confident that this proposal will satisfy Design Perspectives's functional, environmental, and safety requirements -- and most importantly -- bring joy and excitement to the children and families directly benefiting from your new playground.

You have our personal commitment to support this project and your organization in every manner possible, and we look forward to continue developing a long-standing relationship with Design Perspectives. We appreciate your consideration and value this opportunity to earn your business.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Maloney", is written over a faint horizontal line.

Design Summary

Play Illinois, LLC is very pleased to present this Proposal for consideration for the Willow Pond Playground located in Willowbrook. BCI Burke Company, LLC has been providing recreational playground equipment for over 90 years and has developed the right mix of world-class capabilities to meet the initial and continuing needs of Design Perspectives. We believe our proposal will meet or exceed your project's requirements and will deliver the greatest value to you.

The following is a summary of some of the key elements of our Proposal:

- Project Name: Willow Pond Playground
- Project Number: 129-97284-1 – **OPTION 1**
- User Capacity: 145
- Age Groups: Ages 2-5 years, 5-12 years
- Dimensions: 132' 7" x 150' 5"
- Designer Name: Joel Schleis

Play Illinois, LLC has developed a custom playground configuration based on the requirements as they have been presented for the Willow Pond Playground playground project. Our custom design will provide a safe and affordable playground environment that is aesthetically pleasing, full of fun for all users and uniquely satisfies your specific requirements. In addition, proposal # 129-97284-1 has been designed with a focus on safety, and is fully compliant with ASTM F1487 and CPSC playground safety standards.

We invite you to review this proposal for the Willow Pond Playground playground project and to contact us with any questions that you may have.

Thank you in advance for giving us the opportunity to make this project a success.

BCI BURKE GENERATIONS WARRANTY®

The Longest and Strongest Warranty in the Industry

BCI Burke Company, LLC ("Burke") warrants that all standard products are warranted to be free from defects in materials and workmanship, under normal use and service, for a period of one (1) year from the date of invoice.

We stand behind our products.

In addition, the following products are warranted, under normal use and service from the date of invoice as follows:

- One Hundred (100) Year Limited Warranty on aluminum and steel upright posts (including Intensity®, Voltage®, Nucleus® and Little Buddies®) against structural failure due to corrosion, deterioration or workmanship.
- One Hundred (100) Year Limited Warranty on KoreConnect® clamps against structural failure due to corrosion, deterioration or workmanship.
- One Hundred (100) Year Limited Warranty on Hardware (nuts, bolts, washers).
- One Hundred (100) Year Limited Warranty on bolt-through fastening and clamp systems (Voltage®, Intensity®, Nucleus® and Little Buddies®).
- Twenty-Five (25) Year Limited Warranty on spring assemblies and aluminum cast animals.
- Fifteen (15) Year Limited Warranty on main structure platforms and decks, metal roofs, table tops, bench tops, railings, loops and rungs.
- Fifteen (15) Year Limited Warranty on all plastic components including StoneBorders against structural failure due to materials or workmanship.
- Ten (10) Year Limited Warranty on ShadePlay Canopies fabric, threads, and cables against degradation, cracking or material breakdown resulting from ultra-violet exposure, natural deterioration or manufacturing defects. This warranty is limited to the design loads as stated in the specifications.
- Ten (10) Year Limited Warranty on NaturePlay® Boulders and GFRC products against structural failure due to natural deterioration or workmanship. Natural wear, which may occur with any concrete product with age, is excluded from this warranty.
- Ten (10) Year Limited Warranty on Full Color Custom Signage against manufacturing defects that cause delamination or degradation of the sign. Full Color Custom Signs also carry a two (2) year warranty against premature fading of the print and graphics on the signs.
- Five (5) Year Limited Warranty on Intensity® and RopeVenture™ cables against premature wear due to natural deterioration or manufacturing defects. Determination of premature wear will be at the manufacturer's discretion.
- Five (5) Year Limited Warranty on swing seats and hangers; Kid Koaster® Trolleys and other moving parts against structural failure due to materials or workmanship.
- Three (3) Year Limited Warranty on electronic panel speakers, sound chips and circuit boards against electronic failure caused by manufacturing defects.

The warranty stated above is valid only if the equipment is erected in conformity with the layout plan and/or installation instructions furnished by BCI Burke Company, LLC using approved parts; have been maintained and inspected in accordance with BCI Burke Company, LLC instructions. Burke's liability and your exclusive remedy hereunder will be limited to repair or replacement of those parts found in Burke's reasonable judgment to be defective. Any claim made within the above stated warranty periods must be made promptly after discovery of the defect. A part is covered only for the original warranty period of the applicable part. Replacement parts carry the applicable warranty from the date of shipment of the replacement from Burke. After the expiration of the warranty period, you must pay for all parts, transportation and service charges.

Burke reserves the right to accept or reject any claim in whole or in part. Burke will not accept the return of any product without its prior written approval. Burke will assume transportation charges for shipment of the returned product if it is returned in strict compliance with Burke's written instructions.

THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IF THE FOREGOING DISCLAIMER OF ADDITIONAL WARRANTIES IS NOT GIVEN FULL FORCE AND EFFECT, ANY RESULTING ADDITIONAL WARRANTY SHALL BE LIMITED IN DURATION TO THE EXPRESS WARRANTIES AND BE OTHERWISE SUBJECT TO AND LIMITED BY THE TERMS OF BURKE'S PRODUCT WARRANTY. SOME STATES DO NOT ALLOW THE EXCLUSION OF CERTAIN IMPLIED WARRANTIES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

Warranty Exclusions: The above stated warranties do not cover: "cosmetic" defects, such as scratches, dents, marring, or fading; damage due to incorrect installation, vandalism, misuse, accident, wear and tear from normal use, exposure to extreme weather; immersion in salt or chlorine water, unauthorized repair or modification, abnormal use, lack of maintenance, or other cause not within Burke's control; and

Limitation of Remedies: Burke is not liable for consequential or incidental damages, including but not limited to labor costs or lost profits resulting from the use of or inability to use the products or from the products being incorporated in or becoming a component of any other product. If, after a reasonable number of repeated efforts, Burke is unable to repair or replace a defective or nonconforming product, Burke shall have the option to accept return of the product, or part thereof, if such does not substantially impair its value, and return the purchase price as the buyer's entire and exclusive remedy. Without limiting the generality of the foregoing, Burke will not be responsible for labor costs involved in the removal of products or the installation of replacement products. Some states do not allow the exclusion of incidental damages, so the above exclusion may not apply to you.

For more information regarding the warranty, call Customer Service at 920-921-9220 or 1-800-356-2070.

Alann Petersen
Design Perspectives
1280 Iroquois Ave
Naperville, IL 60563

Dear Alann Petersen:

Play Illinois, LLC is delighted to provide Design Perspectives with this playground equipment proposal.

This design was developed with your specific needs in mind, and we look forward to discussing this project further with you to ensure your complete satisfaction. Play Illinois, LLC is confident that this proposal will satisfy Design Perspectives's functional, environmental, and safety requirements -- and most importantly -- bring joy and excitement to the children and families directly benefiting from your new playground.

You have our personal commitment to support this project and your organization in every manner possible, and we look forward to continue developing a long-standing relationship with Design Perspectives. We appreciate your consideration and value this opportunity to earn your business.

Sincerely,

Michael Maloney
Play Illinois, LLC

Design Summary

Play Illinois, LLC is very pleased to present this Proposal for consideration for the Willow Pond Playground located in Willowbrook. BCI Burke Company, LLC has been providing recreational playground equipment for over 90 years and has developed the right mix of world-class capabilities to meet the initial and continuing needs of Design Perspectives. We believe our proposal will meet or exceed your project's requirements and will deliver the greatest value to you.

The following is a summary of some of the key elements of our Proposal:

- Project Name: Willow Pond Playground
- Project Number: 129-97285-1 – **OPTION 2**
- User Capacity: 130
- Age Groups: Ages 2-5 years, 5-12 years
- Dimensions: 133' 8" x 152' 0"
- Designer Name: Joel Schleis

Play Illinois, LLC has developed a custom playground configuration based on the requirements as they have been presented for the Willow Pond Playground playground project. Our custom design will provide a safe and affordable playground environment that is aesthetically pleasing, full of fun for all users and uniquely satisfies your specific requirements. In addition, proposal # 129-97285-1 has been designed with a focus on safety, and is fully compliant with ASTM F1487 and CPSC playground safety standards.

We invite you to review this proposal for the Willow Pond Playground playground project and to contact us with any questions that you may have.

Thank you in advance for giving us the opportunity to make this project a success.

BCI BURKE GENERATIONS WARRANTY®

The Longest and Strongest Warranty in the Industry

BCI Burke Company, LLC ("Burke") warrants that all standard products are warranted to be free from defects in materials and workmanship, under normal use and service, for a period of one (1) year from the date of invoice.

We stand behind our products.

In addition, the following products are warranted, under normal use and service from the date of invoice as follows:

- One Hundred (100) Year Limited Warranty on aluminum and steel upright posts (including Intensity®, Voltage®, Nucleus® and Little Buddies®) against structural failure due to corrosion, deterioration or workmanship.
- One Hundred (100) Year Limited Warranty on KoreConnect® clamps against structural failure due to corrosion, deterioration or workmanship.
- One Hundred (100) Year Limited Warranty on Hardware (nuts, bolts, washers).
- One Hundred (100) Year Limited Warranty on bolt-through fastening and clamp systems (Voltage®, Intensity®, Nucleus® and Little Buddies®).
- Twenty-Five (25) Year Limited Warranty on spring assemblies and aluminum cast animals.
- Fifteen (15) Year Limited Warranty on main structure platforms and decks, metal roofs, table tops, bench tops, railings, loops and rungs.
- Fifteen (15) Year Limited Warranty on all plastic components including StoneBorders against structural failure due to materials or workmanship.
- Ten (10) Year Limited Warranty on ShadePlay Canopies fabric, threads, and cables against degradation, cracking or material breakdown resulting from ultra-violet exposure, natural deterioration or manufacturing defects. This warranty is limited to the design loads as stated in the specifications.
- Ten (10) Year Limited Warranty on NaturePlay® Boulders and GFRG products against structural failure due to natural deterioration or workmanship. Natural wear, which may occur with any concrete product with age, is excluded from this warranty.
- Ten (10) Year Limited Warranty on Full Color Custom Signage against manufacturing defects that cause delamination or degradation of the sign. Full Color Custom Signs also carry a two (2) year warranty against premature fading of the print and graphics on the signs.
- Five (5) Year Limited Warranty on Intensity® and RopeVenture™ cables against premature wear due to natural deterioration or manufacturing defects. Determination of premature wear will be at the manufacturer's discretion.
- Five (5) Year Limited Warranty on swing seats and hangers; Kid Koaster® Trolleys and other moving parts against structural failure due to materials or workmanship.
- Three (3) Year Limited Warranty on electronic panel speakers, sound chips and circuit boards against electronic failure caused by manufacturing defects.

The warranty stated above is valid only if the equipment is erected in conformity with the layout plan and/or installation instructions furnished by BCI Burke Company, LLC using approved parts; have been maintained and inspected in accordance with BCI Burke Company, LLC instructions. Burke's liability and your exclusive remedy hereunder will be limited to repair or replacement of those parts found in Burke's reasonable judgment to be defective. Any claim made within the above stated warranty periods must be made promptly after discovery of the defect. A part is covered only for the original warranty period of the applicable part. Replacement parts carry the applicable warranty from the date of shipment of the replacement from Burke. After the expiration of the warranty period, you must pay for all parts, transportation and service charges.

Burke reserves the right to accept or reject any claim in whole or in part. Burke will not accept the return of any product without its prior written approval. Burke will assume transportation charges for shipment of the returned product if it is returned in strict compliance with Burke's written instructions.

THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IF THE FOREGOING DISCLAIMER OF ADDITIONAL WARRANTIES IS NOT GIVEN FULL FORCE AND EFFECT, ANY RESULTING ADDITIONAL WARRANTY SHALL BE LIMITED IN DURATION TO THE EXPRESS WARRANTIES AND BE OTHERWISE SUBJECT TO AND LIMITED BY THE TERMS OF BURKE'S PRODUCT WARRANTY. SOME STATES DO NOT ALLOW THE EXCLUSION OF CERTAIN IMPLIED WARRANTIES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

Warranty Exclusions: The above stated warranties do not cover: "cosmetic" defects, such as scratches, dents, marring, or fading; damage due to incorrect installation, vandalism, misuse, accident, wear and tear from normal use, exposure to extreme weather; immersion in salt or chlorine water, unauthorized repair or modification, abnormal use, lack of maintenance, or other cause not within Burke's control; and

Limitation of Remedies: Burke is not liable for consequential or incidental damages, including but not limited to labor costs or lost profits resulting from the use of or inability to use the products or from the products being incorporated in or becoming a component of any other product. If, after a reasonable number of repeated efforts, Burke is unable to repair or replace a defective or nonconforming product, Burke shall have the option to accept return of the product, or part thereof, if such does not substantially impair its value, and return the purchase price as the buyer's entire and exclusive remedy. Without limiting the generality of the foregoing, Burke will not be responsible for labor costs involved in the removal of products or the installation of replacement products. Some states do not allow the exclusion of incidental damages, so the above exclusion may not apply to you.

For more information regarding the warranty, call Customer Service at 920-921-9220 or 1-800-356-2070.

SubTotal: \$46,880.06
 Freight: \$2,695.59
Total Amount: \$44,541.20

Contract: USC

Pricing: Prices are firm for 30 days unless otherwise noted. Above costs assume one shipment and one installation unless otherwise noted. Taxes will be shown as a separate line item if included. Any applicable taxes not shown will be applied to final invoice.

Lead Time/Shipments: Standard orders shipped 4 weeks after receipt of order and acceptance of your purchase order, color selections, approved submittals, (if required) unless otherwise noted. Custom equipment and shades may require a longer lead time. Surfacing lead time is approximately 2 weeks after scheduling request. It is the responsibility of the owner to offload and inventory equipment, unless other arrangements have been made. Missing or damaged equipment must be reported within 60 days of acceptance of delivery. Equipment may be sent in multiple shipments based on point of origin.

Payment Terms: Net 30 days subject to approval by Credit Manager. A signed P.O. made out to Cunningham Recreation or this signed quotation is required for all orders unless otherwise noted. A 1.5% per month finance charge will be imposed on all past due accounts. Equipment shall be invoiced separately from other services and shall be payable in advance of those services and project completion. Checks should be made payable to Cunningham Recreation unless otherwise directed.

Acceptance of this proposal indicates your agreement to the terms and condition stated herein.

FURNISH & DELIVER ONLY:

- All items are quoted furnish and deliver ONLY. Installation is NOT included.

Willow Pond Site Improvements (RFP)

U.S. COMMUNITIES TERMS & CONDITIONS

- LEAD TIME: normal lead time is 30 days from active order date.
- PURCHASE ORDERS: MUST BE MADE OUT TO GAMETIME c/o CUNNINGHAM RECREATION
- PRICING: pricing is net, f.o.b. destination, after freight charges have been calculated using the contact shipping rates provided herein and added to the net product prices shown on the contract price list. Gametime offers most favored pricing and special discounts to those local public agencies participating in the U.S. Communities contract. Product pricing derives from and is indexed by the 2006 GameTime Catalog, less the applicable discounts stated herein. GameTime pricing is adjusted the first of each year with the printing and distribution
- QUANTITY DISCOUNTS: Volume single purchases of composite play systems only shall be eligible for an additional discount.
- ORDERS: All orders shall be in writing on the buying entity's purchase order form or similar documentation, and showing GameTime as the vendor. Open buying on the Internet (OBI) is not currently available.
- SHIPMENT: Shipping shall commence within 4-6 weeks after our receipt and acceptance of the customer purchase order, color selections and approval of submittals, if required.
- TERMS OF SALE: Payment is due within 30 days from date of invoice for governmental agencies. Payment may be made by VISA or MasterCard. Orders for materials paid for at the time of placement are entitled to a 3% cash-with-order discount.
- MINIMUM ORDER: RFP 269-2003-007 purchases, other than replacement parts, require a minimum order of \$500.00.
- PACKAGING: All goods shall be packaged in accordance with acceptable commercial practices and marked to preclude confusion during unloading and handling.
- RECEIPT OF GOODS: Customer shall receive, unload and inspect goods upon arrival, reporting any discrepancies on the delivery receipt prior to written acceptance of the shipment. Concealed damages must be reported within 15 days of delivery & concealed shortages must be reported within 60 days.
- INSTALLATION: If included with purchase, shall be by a Certified GameTime installer. Customer shall be responsible for scheduling coordination and site preparation. Site should be level and permit installation equipment access. Purchaser shall be responsible for unknown conditions such as buried utilities, tree stumps, bedrock or any concealed materials or conditions that may result in additional labor or material costs. Added charges may result for failure to notify the installer of schedule changes or site conditions that prevent installation.
- EXCLUSIONS: Unless otherwise noted, this proposal excludes all site work and landscaping, removal of existing equipment; storage of goods prior to installation; drainage provisions; and safety surfacing and borders unless purchased separately. Customer shall be responsible for providing a clear, level site for installation and for scheduling deliveries and coordinating installation.
- SUBMITTALS: Our design proposal reflects the spirit and intent of the solicitation. While some variations may exist between GameTime designs and specifications are unique and not intended to be identical in all respects to other manufacturers. If required, we shall submit for review and approval by the owner's representative detailed drawings depicting the equipment to be furnished accompanied by specifications describing materials. Once approved, these drawings and specifications shall constitute the final documents for the project and shall take precedence over all other requirements. GameTime shall provide for each playground two sets of installation, assembly and maintenance instructions in accordance with our standard practices. All composite playground designs and equipment shall comply with ASTM F 1487-01, Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use; Handbook for Public Playground Safety Publication 325 by the U.S. Consumer Products Safety Commission; and the Guide to ADA Accessibility Guidelines for Play Areas published by the U.S. Access Board.
- CREDIT APPLICATIONS: If required must be submitted with your order.
- FINANCE CHARGE: A 1.5% monthly finance charge will be added to all invoices over 30 days past due.

GT Events Specifications

General System Specifications:

The uprights shall be factory drilled to ensure accurate placement of components and ease of installation. Field drilling and measuring are not required. GT Events are direct bolt products NOT a clamp system. All uprights shall receive factory installed aluminum post caps and shall be shipped with a factory applied label indicating proper surfacing level.

All decks and components shall connect to support posts by means of a through-bolt connection for strong, durable connections. Deck/Collar attachments shall not be acceptable.

Manufacturer shall offer the following warranties on the materials and components of its system:

- LIFETIME LIMITED WARRANTY ON SUPPORT POSTS (UPRIGHTS)
- 15 YEAR LIMITED WARRANTY ON PUNCHED STEEL DECKS, PIPES, RAILS, LOOPS AND RUNGS
- 15 YEAR LIMITED WARRANTY ON ROTOMOLDED POLYETHYLENE COMPONENTS
- LIFETIME LIMITED WARRANTY ON POWERLOCK AND HARDWARE

Manufacturer shall be ISO 9001/2008 certified

Manufacturer shall show IPEMA certification of compliance for each component that the product conforms with the requirements of ASTM F1487-07ae1.

Climbers

DISCOVER CAVE

DISCOVER CAVE: Shall be 1/4" wall thickness double wall construction, color impregnated linear low density polyethylene and shall conform to the rotationally molded specifications outlined herein.

CONNECTOR PLATE: Shall be fabricated from 1/4" x 4" hot rolled flat steel with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein.

FOOTBUCK: Shall be an all welded construction fabricated from 2 3/8" O.D. (13ga.) galvanized steel tubing and 12ga steel sheet. The footbuck shall be coated after fabrication with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein.

HANDHOLDS: Shall be manufactured from a hybrid resin mixture with custom formulated UV inhibitor.

HARDWARE: All nuts, bolts, screws and lockwashers used in the assembly of all equipment, shall be stainless steel, yellow dichromate plated steel, blue-coat plated steel, mechanically galvanized or powder coated/yellow dichromate plated steel. All primary fasteners shall be 300 series stainless steel. Fasteners with yellow dichromate treatment have an electro deposited, 99.9% pure zinc substrate applied from a specially formulated solution sealed with a yellow dichromate top coat designed to work in conjunction with the zinc plating. Yellow dichromate has a 320% longer life to white corrosion and 275% longer to red corrosion than does hot-dip galvanizing.

ROTATIONALLY MOLDED: Polyethylene shall be linear low-density material with UV-stabilized color and an anti-static compound additive. Rotationally molded products shall meet or exceed the following specifications: ASTM D-1248, type 2, class A and Federal specification LP-390C, type 1, class M, grade 2, category 3; Density (ASTM D-1505); Brittleness Temperature (ASTM D-746); Tensile Values (ASTM D-638); Flexural Modulus (ASTM-790);

Heat Distortion (ASTM-648); Low Temperature Impact (ARM-STD).

POWDER COAT FINISH: Shall be an electrostatically applied custom formula of TGIC polyester powder. All components will be free of sharp edges and excess weld spatter and shall be cleaned in a six stage bath system with an iron phosphate wash, as a rust inhibitor, and a sealer to prevent flash rusting before coating. The coating shall have a super tough finish with maximum exterior durability and will have superior adhesion characteristics. Typical characteristics are: 3.0 - 5.0 mil thickness and oven cured between 375 to 425 degrees

Fahrenheit. Pencil Hardness H (ASTM D-3363), Impact (ASTM D-2794-69), Wedge Bend (ASTM D-522-68).

SPECIFICATIONS: GAMETIME © has a policy of continuous improvement and reserves the right to discontinue or change specifications without notice.

Motion

G2

G2 COVER AND BASE: Shall be one piece construction manufactured from linear low-density polyethylene material and shall conform to the rotationally molded specifications outlined herein. Polyethylene shall be linear low-density material with UV-stabilized color and an anti-static compound additive. Rotationally molded products shall meet or exceed the following specifications: ASTM D-1248, type 2, class A and Federal specification LP-390C, type 1, class M, grade 2, category 3; Density (ASTM D- 1505); Brittleness Temperature (ASTM D-746); Tensile Values (ASTM D-638); Flexural Modulus (ASTM D-790); Heat Distortion (ASTM-648); Low Temperature Impact (ARM-STD).

G2 BASKET: Shall be fabricated from 1 5/16" O.D. x .083" (14 gauge) wall, 1 1/16" O.D. x .072" (15 gauge) wall galvanized steel tubing and 3/16" hot rolled flat steel. Revolution Basket shall be an all welded assembly and shall be coated with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein, after fabrication.

GROUND SHAFT: Shall be constructed of 5" SCH 40 galvanized steel pipe, 1/4" thick H.R. steel plate, and a shaft machined from H.R. steel. Ground Shaft shall be an all welded assembly and shall be coated with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein, after fabrication.

HUB BEARING: Shall be fabricated from 5.500" o.d. x .500" wall D.O.M. MEC. tube and 3/16" H.R. steel plate. Two bearings shall be press fit into the weld assembly. Hub Bearing shall be an all welded assembly and shall be coated with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein, after fabrication.

UPPER SHAFT: Shall be constructed of 5" SCH 40 galvanized steel pipe, 3/16" and 1/4" thick H.R. steel plate, and a shaft machined from H.R. steel. Upper Shaft shall be an all welded assembly and shall be coated with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein, after fabrication.

POWDER COAT FINISH: Shall be an electrostatically applied custom formula of TGIC polyester powder. All components will be free of sharp edges and excess weld spatter and shall be cleaned in a six stage bath system with an iron phosphate wash, as a rust inhibitor, and a sealer to prevent flash rusting before coating. The coating shall have a super tough finish with maximum exterior durability and will have superior adhesion characteristics. Typical characteristics are: 3.0 - 5.0 mil thickness and oven cured between 375 to 425 degrees Fahrenheit. Pencil Hardness H (ASTM D-3363), Impact (ASTM D-2794- 69), Wedge Bend (ASTM D-522-68),

HARDWARE: All nuts, bolts, screws, inserts, and lockwashers used in the assembly of all play equipment, shall be stainless steel, yellow dichromate plated steel, blue-coat plated steel, mechanically galvanized or powder coated/yellow dichromate plated steel. All primary fasteners shall be 300 series stainless steel. Fasteners with yellow dichromate treatment have an electro deposited, 99.9% pure zinc substrate applied from a specially formulated solution sealed with a yellow dichromate top coat designed to work in conjunction with the zinc plating. Yellow dichromate has a 320% longer life to white corrosion and 275% longer to red corrosion than does hot-dip galvanizing.

NOTE: All weights are based on average comparisons of each part.

SPECIFICATIONS: GAMETIME® has a policy of continuous improvement and reserves the right to discontinue or change specifications without notice.

SPINNING SENSORY WAVE SEAT

SENSORY WAVE SEAT: shall be rotational molded from polyethylene. The polyethylene shall be linear low-density material with UV-stabilized color and an anti-static compound additive. All rotational molded products shall meet or exceed the following specifications: ASTM D-1248, type 2, class A and Federal specification LP-390C, type 1, class M, grade 2, category 3; Density (ASTM D-155); Brittleness Temperature (ASTM D-746); Tensile Values (ASTM-638); Flexural Modulus (ASTM- D-790); Heat Distortion (ASTM-648); Low Temperature Impact (ARM-STD).

BEARING ASSEMBLY: Shall be an all welded assembly constructed of 1/4" H.R. steel plate, and a hub machined from C.R. steel. Two bearings shall be press fit into the weld assembly.

POST WELD ASSEMBLY: Shall be an all welded assembly constructed of 2" SCH40 galvanized steel pipe, 1/4" thick H.R. steel plate, and a shaft machined from H.R. steel.

FINISH: The assemblies coated after fabrication with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein.

HARDWARE: All nuts, bolts, screws, inserts, and lock washers used in the assembly of all play equipment, shall be stainless steel, yellow dichromate plated steel, blue-coat plated steel, mechanically galvanized or powder coated/yellow dichromate plated steel. All primary fasteners shall be 300 series stainless steel. Fasteners with yellow dichromate treatment have an electro deposited, 99.9% pure zinc substrate applied from a specially formulated solution sealed with a yellow dichromate top coat designed to work in conjunction with the zinc plating. Yellow dichromate has a 320% longer life to white corrosion and 275% longer to red corrosion than does hot-dip galvanizing.

NOTE: All weights are based on average comparisons of each part.

SPECIFICATIONS: GAMETIME has a policy of continuous improvements and reserves the right to discontinue or change specifications without notice.

Swings

BELT SEAT WITH CLEVIS

Commercial Belt Seat - an extra piece of fluted rubber at the front and back of seat gives it a cushion bumper.

SWING CLEVIS: Shall be 5/16" Dia. with galvanized finish. Bolt shall have tamper resistant head.

CHAIN: (a) Material: 7/32" diameter steel wire. (b) Dimensions (inside for each link): 3/8" wide, 1-3/8" long. (c) Finish: Chain shall be hot dipped galvanized. (d) Type of construction: 4/0 welded link coil chain.

COATED CHAIN: Shall be standard 7/32" diameter steel wire chain with a 1/8" (nominal) thickness of color-impregnated polyvinyl coating with U.V. inhibitors.

STAINLESS STEEL CHAIN: (a) Material: 7/32" diameter steel wire. (b) Dimensions (inside for each link): 3/8" wide, 1-3/8" long. (c) Type of construction: 4/0 welded link coil chain.

HARDWARE: All nuts, bolts, screws, inserts, and lockwashers used in the assembly of all play equipment, shall be stainless steel, yellow dichromate plated steel, blue-coat plated steel, mechanically galvanized or powder coated/yellow dichromate plated steel. All primary fasteners shall be 300 series stainless steel. Fasteners with yellow dichromate treatment have an electro deposited, 99.9% pure zinc substrate applied from a specially formulated solution sealed with a yellow dichromate top coat designed to work in conjunction with the zinc plating. Yellow dichromate has a 320% longer life to white corrosion and 275% longer to red corrosion than does hot-dip galvanizing.

ENCLOSED TOT SEAT WITH CLEVIS

Fully Enclosed Seats shall be fabricated with .025" thick stainless steel inserts covered by a dark green colored EPDM rubber.

SWING CLEVIS: Shall be 5/16" Dia. with galvanized finish. Bolt shall have tamper resistant head.

CHAIN: (a) Material: 7/32" diameter steel wire. (b) Dimensions (inside for each link): 3/8" wide, 1-3/8" long. (c) Finish: Chain shall be hot dipped galvanized. (d) Type of construction: 4/0 welded link coil chain.

COATED CHAIN: Shall be standard 7/32" diameter steel wire chain with a 1/8" (nominal) thickness of color-impregnated polyvinyl coating with U.V. inhibitors.

STAINLESS STEEL CHAIN: (a) Material: 7/32" diameter steel wire. (b) Dimensions (inside for each link): 3/8" wide, 1-3/8" long. (c) Type of construction: 4/0 welded link coil chain.

HARDWARE: All nuts, bolts, screws, inserts, and lockwashers used in the assembly of all play equipment, shall be stainless steel, yellow dichromate plated steel, blue-coat plated steel, mechanically galvanized or powder coated/yellow dichromate plated steel. All primary fasteners shall be 300 series stainless steel.

Fasteners with yellow dichromate treatment have an electro deposited, 99.9% pure zinc substrate applied from a specially formulated solution sealed with a yellow dichromate top coat designed to work in conjunction with the zinc plating. Yellow dichromate has a 320 % longer life to white corrosion and 275% longer to red corrosion than does hot-dip galvanizing.

PRIMETIME SWING

TOPRAIL AND ARCH: Shall be fabricated of 3-1/2" O.D. (13 Gauge) galvanized steel tubing. Arch includes a welded 3-1/8" O.D. galvanized steel sleeve to which the top rail is fastened.

FINISH: Shall be an electrostatically applied custom formula of TGIC polyester powder with baked finish. Specify color desired.

HARDWARE: All nuts, bolts, screws, inserts, and lockwashers used in the assembly of all play equipment, shall be stainless steel, yellow dichromate plated steel, blue-coat plated steel, mechanically galvanized or powder coated/yellow dichromate plated steel. All primary fasteners shall be 300 series stainless steel.

Fasteners with yellow dichromate treatment have an electro-deposited, 99.9% pure zinc substrate applied from a specially formulated solution sealed with a yellow dichromate top coat designed to work in conjunction with the zinc plating. Yellow dichromate has a 320% longer life to white corrosion and 275% longer to red corrosion than does hot-dip galvanizing.

ZERO-G CHAIR

The Zero-G Chair shall be rotationally molded with linear low-density polyethylene conforming to the specifications herein. The Zero-G Chair shall incorporate a "Roller Coaster" style Brace and Latch to secure the user in place. The Brace and Latch shall be rotationally molded with linear low-density polyethylene conforming to the specifications herein. The Zero-G Chair shall be offered with two chain hanging options. The Galvanized chain option shall be fabricated from standard 7/32" diameter steel wire chain. The chain shall be hot dipped galvanized. The Stainless Steel chain option shall be fabricated from standard 7/32" diameter stainless steel wire chain.

PowerScope Plus Specifications

General System Specifications:

PowerScape® Plus features 5" O.D. uprights with a positive bolt-through PowerLock fastening system. The uprights shall be factory drilled to ensure accurate placement of components and ease of installation. Field drilling and measuring are not required. PowerScape® Plus is a direct bolt system NOT a clamp system. All uprights shall receive factory installed aluminum post caps and shall be shipped with a factory applied label indicating proper surfacing level.

All decks and components shall connect to support posts by means of a through-bolt connection for strong, durable connections. Deck/Collar attachments shall not be acceptable. All climbing attachments shall include a 15" wide deck entry archway to control deck access to one child at a time and help prevent inadvertent falls.

Manufacturer shall offer the following warranties on the materials and components of its system:

- LIFETIME LIMITED WARRANTY ON SUPPORT POSTS (UPRIGHTS)
- 15 YEAR LIMITED WARRANTY ON PUNCHED STEEL DECKS, PIPES, RAILS, LOOPS AND RUNGS
- 15 YEAR LIMITED WARRANTY ON ROTOMOLDED POLYETHYLENE COMPONENTS
- LIFETIME LIMITED WARRANTY ON POWERLOCK AND HARDWARE

Manufacturer shall be ISO 9001/2008 certified

Manufacturer shall show IPEMA certification of compliance for each component that the product conforms with the requirements of ASTM F1487-07ae1.

General Specifications of Materials:

POWDER COAT FINISH

Shall be an electrostatically applied custom formula of TGIC polyester powder. All components will be free of sharp edges and excess weld spatter and shall be cleaned in a six stage Alkaline bath system (free of iron phosphate), as a rust inhibitor, and a zirconium conversion coating to prevent flash rusting before coating. In addition, all welds shall be protectively coated with ZRP, a zinc rich primer that forms a rust-resistant barrier layer over each weld prior to application of the powder coating. The powder coating shall have a super tough finish with maximum exterior durability and will have superior adhesion characteristics. Typical characteristics are: Two coat process to achieve 3.0 - 5.0 mil thickness and oven cured between 375 to 425 degrees Fahrenheit. Pencil Hardness H (ASTM D-3363), Impact (ASTM D-2794- 69), Wedge Bend (ASTM D-522-68), Adhesion (Cross Hatch ASTM D-3359 & Knife Scratch ASTM D-2197), Environmental (Stain Resistance ASTM D-1308, Humidity ASTM D-2247 - 87, Salt Spray ASTM B-117 & Fadometer 300 hrs with no loss of gloss), Over-bake Stability 100% at 400 degrees Fahrenheit.

Climbers:

SPIDER WEB

The Spider Web net shall be constructed of 16mm galvanized wire reinforced cable with a urethane coated polyester cover. The net mounting tabs shall be fabricated from 3/16" hot rolled steel, formed to match and bolted directly to 5"OD uprights with 3/8" stainless steel hardware. The tabs shall be coated with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein, after fabrication. The bushing shall be machined from an alloy of 6061 aluminum.

PowerScape Specifications

General System Specifications:

PowerScape® features 5" O.D. uprights with a positive bolt-through TRU-LOC fastening system. The uprights shall be factory drilled to ensure accurate placement of components and ease of installation. Field drilling and measuring are not required. PowerScape® is a direct bolt system NOT a clamp system. All uprights shall receive factory installed aluminum post caps and shall be shipped with a factory applied label indicating proper surfacing level.

All decks and components shall connect to support posts by means of a through-bolt connection for strong, durable connections. Deck/Collar attachments shall not be acceptable. All climbing attachments shall include a 15" wide deck entryway or archway to control deck access to one child at a time and help prevent inadvertent falls.

Manufacturer shall be ISO 9001/2008 certified

Manufacturer shall show IPEMA certification of compliance for each component that the product conforms with the requirements of ASTM F1487-11.

General Specifications of Materials

HARDWARE

All nuts, bolts, screws, inserts, and lockwashers used in the assembly of all play equipment shall be stainless steel, yellow dichromate plated steel, blue-coat plated steel, mechanically galvanized or powder coated/yellow dichromate plated steel. All primary fasteners shall be 304 alloy stainless steel. Fasteners with yellow dichromate treatment have an electro-deposited, 99.9% pure zinc substrate applied from a specially formulated solution sealed with a yellow dichromate top coat designed to work in conjunction with the zinc plating. Yellow dichromate has a 320% longer life to white corrosion and 275% longer to red corrosion than does hot-dip galvanizing. PowerScape Plus stainless steel fasteners shall be button pin-in head, hex socket cap screws with a two-part epoxy locking patch added to the threads. The two-part locking patch shall consist of one part resin and one part catalyst which are activated during installation. After curing, the material shall require a minimum of five times the installation torque to remove the fastener. Manufacturer shall provide special installation tools for pinned fasteners.

POWDER COAT FINISH

Shall be an electrostatically applied custom formula of TGIC polyester powder. All components will be free of sharp edges and excess weld spatter and shall be cleaned in a six stage Alkaline bath system (free of iron phosphate), as a rust inhibitor, and a zirconium conversion coating to prevent flash rusting before coating. In addition, all welds shall be protectively coated with ZRP, a zinc rich primer that forms a rust-resistant barrier layer over each weld prior to application of the powder coating. The powder coating shall have a super tough finish with maximum exterior durability and will have superior adhesion characteristics. Typical characteristics are: Two coat process to achieve 3.0 - 5.0 mil thickness and oven cured between 375 to 425 degrees Fahrenheit. Pencil Hardness H (ASTM D-3363), Impact (ASTM D-2794- 69), Wedge Bend (ASTM D-522-68), Adhesion (Cross Hatch ASTM D-3359 & Knife Scratch ASTM D-2197), Environmental (Stain Resistance ASTM D-1308, Humidity ASTM D-2247 - 87, Salt Spray ASTM B-117 & Fadometer 300 hrs with no loss of gloss), Over-bake Stability 100% at 400 degrees Fahrenheit.

ROTATIONALLY MOLDED PRODUCTS

All polyethylene shall be linear low-density material with UV-stabilized color and an anti-static compound additive. All rotationally molded products shall meet or exceed the following specifications: ASTM D-1248, type 2, class A and Federal specification LP-390C, type 1, class M, grade 2, category 3; Density (ASTM D- 1505); Brittleness Temperature (ASTM D-746); Tensile Values (ASTM D-638); Flexural Modulus (ASTM D-790); Heat Distortion (ASTM-648); Low Temperature Impact (ARM-STD).

METAL GUARDRAIL ENTRYWAY

The Guardrail Entryway shall be fabricated of 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing and a 3/16" Hot Rolled Mounting Tab. The Guardrail Entryway shall be an all welded assembly and shall be coated after fabrication with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein.

METAL BARRIER ENTRYWAY

The Barrier Entryway shall be fabricated of 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing and a 3/16" Hot Rolled Mounting Tab. The vertical rungs shall be fabricated of 1-1/16" O.D. x .075" (15 gauge) wall galvanized steel tubing. The Barrier Entryway shall be an all welded assembly and shall be coated after fabrication with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein.

METAL BARRIER ARCHWAY

The Barrier Archway shall be fabricated of 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing and 3/16" Hot Rolled Mounting Tabs. The vertical rungs shall be fabricated of 1-1/16" O.D. x .075" (15 gauge) wall galvanized steel tubing. The Barrier Archway shall be an all welded assembly and shall be coated after fabrication with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein.

Uprights & Upright Accessories:

TRU-LOC CONNECTION

The Tru-Loc shall incorporate an aluminum casting in a distinctive purpose mounting system that allows a rung panel to mount to the upright. The Tru-Loc connector will have a matching counterpart for flat panel connections. Each is bolted directly into the upright post through a factory located and installed connection and designed to eliminate protrusions. Each shall be die cast of 380 aluminum alloy, to resist corrosion. Minimum tensile strength shall be 45,000 psi, minimum yield strength shall be 22,000 psi. All connectors shall be coated with a custom formula of TGIC polyester powder coating, in conformance with the specifications outlined herein.

UPRIGHTS, ALUMINUM

Shall be 5" outside diameter tubing, 1/8" wall thickness, extruded from 6005-T5 aluminum alloy conforming to ASTM-B-221. Minimum yield strength shall be 35,000 psi and minimum tensile strength shall be 38,000 psi. All upright posts shall have a finished grade line marking to indicate the correct playground safety surface level. All upright posts shall be coated with a custom formula TGIC polyester powder coating in conformance with the specifications outlined herein.

UPRIGHTS, STEEL

Shall be 5" outside diameter, 11 gauge (.120") galvanized round tubing, manufactured to ASTM A-500 Grade B tolerances from cold-formed steel conforming to ASTM A-569 Sheet Spec for steel coil. Minimum yield strength shall be 50,000 psi and minimum tensile strength shall be 55,000 psi.

The exterior surface is hot dip galvanized, chromate conversion coated, and a clear high performance organic polymer is applied. The inside diameter has 81% minimum zinc rich primer capable of providing excellent rust protection and fabrication characteristics. All coatings are applied inside and out after welding for superior corrosion protection throughout. Exterior surface galvanizing zinc purity is 99% as per ASTM B-6 high grade and special high grade. Galvanizing coverage shall demonstrate the ability to exceed 1000 hours salt spray corrosion exposure in accordance with ASTM B-117. Internal surface zinc rich 81% minimum zinc dust content in organic resin, as per ASTM F-1234, Section 5.2.4, Type D. All upright posts shall have a finished grade line marking to indicate the correct playground safety surface level. All upright posts shall be coated with a custom formula TGIC polyester powder coating in conformance with the specifications outlined herein.

UPRIGHT CAPS

The standard upright cap shall be an aluminum cap, cast from a 383 alloy, powder coated to match the upright. Every upright cap shall receive a primer coat for maximum protection. All upright caps are permanently installed at the factory using aluminum self-sealing rivets.

Punched Steel & Coated Deck Components:

PUNCHED STEEL DECKS AND PVC COATED COMPONENTS

All punched steel products shall be fabricated from 11 gauge punched steel with a protective p&o finish. Coated products shall consist of a welded assembly with an oven cured matte finish polyvinyl chloride (PVC) coating with a minimum coating thickness of .080". All decks shall be exclusively dipped utilizing the DuraWear process with an extra thick coating on the top of the deck. The PVC coating shall have a hardness of Shore A 83 +/-5 normal durometer range. This material is classed as "Self Extinguishing", meets or exceeds automotive specifications NVSS302, and contains ultraviolet inhibitors to help prolong the life of the coating. The PVC coating shall contain phthalate levels in concentrations of 1/10 of 1% or lower. For ADA Ramp Accessible decks and ramps, the hole shall measure 1/4" diameter after coating. For standard decks and ramps, the hole size shall measure 1 1/4" diameter after coating.

DECKS, SQUARE

Shall have a minimum surface area of 2,381 square inches, maintaining a full 49" center to center spacing on the upright posts. The 49" square deck shall be fabricated in conformance with the punched steel specifications outlined herein. The deck frame shall be fabricated from 3/16" x 3-1/2" hot rolled steel with corner supports fabricated from 1/4" x 3-1/2" hot rolled steel. Intermediate supports, fabricated from 1/8" x 2-1/2" hot rolled steel, shall be notched and welded at the intersections forming a rigid 12" support grid underneath the entire deck surface. The deck shall be a one-piece welded assembly, coated after fabrication with an oven cured matte finish polyvinyl chloride (PVC) coating in accordance with the specifications herein. The square deck shall be directly bolted to the upright posts with eight 3/8" diameter button-pin-in-head, hex socket cap screws in accordance with the hardware specifications herein.

DECKS, TRIANGULAR

Shall have a minimum surface area of 1,039 square inches, maintaining a full 49" center to center spacing on the upright posts. The triangular platform shall be fabricated in conformance with the punched steel specifications outlined herein. The deck frame shall be fabricated from 3/16" x 3-1/2" hot rolled steel with corner supports fabricated from 1/4" x 3-1/2" hot rolled steel. Intermediate supports, fabricated from 1/8" x 2-1/2" hot rolled steel, shall be welded at the intersections forming a rigid support grid underneath the deck surface. The deck shall be a one-piece welded assembly, coated after fabrication with an oven cured matte finish polyvinyl chloride (PVC) coating in accordance with the specifications herein. Each triangular deck shall be directly bolted to the upright posts with six 3/8" diameter button-pin-in-head, hex socket cap screws in accordance with the hardware specifications herein.

TRANSFER PLATFORM WITH PUNCHED STEEL

Platform and step shall be made from 11 gauge punched steel metal in conformance with the specifications outlined herein. Platform and step shall each be a one-piece welded assembly. The platform frame shall be fabricated from 3/8" x 3-1/2" hot rolled steel. Handholds shall be fabricated from 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing with vertical members fabricated of 2" square x 3/16" wall steel tubing. The corner post assembly shall be fabricated from 2 3/8" O.D. x .095" (13 gauge) wall galvanized steel tubing with handholds made from 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing. Both the corner post and the handholds shall be all-welded assemblies and shall be coated with a custom formula of TGIC polyester powder in conformance with the specifications outlined herein, after fabrication. Step assembly frame shall be made from 10 gauge (.135" thick) hot rolled flat steel. The step assembly and corner post assembly can be installed on either the right or left side of the platform, offering installation flexibility. Note: The PowerScape Transfer Point when used in Step assembly frame shall be made from 10 gauge (.135" thick) hot rolled flat steel. The step assembly and corner post assembly can be installed on either the right or left side of the platform, offering installation flexibility.

TWO PIECE HEX DECK

Shall have a minimum surface area of 3,117 square inches, maintaining a full 49" center to center spacing on three sides between upright posts. The Two Piece Hex deck shall be fabricated in conformance with the punched steel specifications outlined herein. The Two Piece Hex deck corner supports shall be fabricated from 1/8" x 3-1/2" hot rolled steel. Intermediate supports, fabricated from 1/8" x 2-1/2" hot rolled steel, shall be notched and welded at the intersections forming a rigid support grid underneath the entire deck surface. The Two Piece Hex deck shall be a one-piece welded assembly, coated after fabrication with an oven cured matte finish polyvinyl chloride (PVC) coating in accordance with the specifications herein. The Two Piece Hex deck shall be directly bolted to the upright posts with twelve 3/8" diameter button-pin-in-head, hex socket cap screws in accordance with the hardware specifications herein.

SLIDE TRANSFER

The Platform shall each be made from 11 gauge punched steel with a protective p&o finish in conformance with the specifications outlined herein. The Platform and Steps shall each be a one-piece welded assembly finished with the matte PVC coating per the specifications herein. Handrails shall be all-welded assemblies, fabricated from 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing, and shall be coated after fabrication with a custom formula of TGIC polyester powder in conformance with the specifications outlined herein.

Roofs & Arches:

TIN ROOF

The Tin Roof Mega Hex, Tin Roof Gable Filler, Tin Roof End Gable, Tin Roof Cross Gable, Tin Roof Gable, Tin Roof Wide Pentagonal, Tin Roof 4 Wide Tri, Tin Roof Hex, and Tin Roof 4 Square panels shall be fabricated from a formed 14 gauge galvalume sheet. The Upright Caps shall be fabricated from 3/16" thick hot rolled steel plate, 1/8" thick hot rolled steel plate, and 5" O.D. x .12" galvanized steel pipe. The Roofs Panels and Upright Caps shall be coated with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein, after fabrication.

Climbers:

WAVE CLIMBER

This patent pending one-piece climber shall be color impregnated linear low density polyethylene and shall conform to the rotationally molded specifications outlined herein. The climber utilizes "waves" and "bumps" to allow the user to ascend and descend at their level of ability. The mounting bracket shall be fabricated of 3/16" x 2-1/2" hot rolled steel. The mounting bracket, enclosure, and foot buck assemblies shall be coated with a custom formula of TGIC polyester powder, after fabrication in conformance with the specifications outlined herein.

RIVER ROCK CLIMBER

The River Rock climber utilizes "rock formations" and "natural rock shaped handholds" to allow the user to ascend and descend at their level of ability. This climber can be mounted in two orientations with respect to the specific deck height (please refer installation document). Underside of the climber is provided with additional play activity where users can discover and learn about animals in river rock habitat. River Rock Climber shall be rotationally molded linear low-density polyethylene material and shall conform to the rotationally molded specifications outlined herein. The mounting bracket shall be fabricated of 1/4" x 1" hot rolled steel. All footbucks shall be fabricated with 1.315" O.D. X 0.083in. (14 gauge) wall galvanized steel tubing. The mounting bracket, enclosure, and foot buck assemblies shall be coated with a custom formula of TGIC polyester powder, after fabrication in conformance with the specifications outlined herein.

Overhead Ladders

HORIZONTAL & INCLINED LOOP LADDERS

The horizontal loop ladder assemblies shall be fabricated from 2-7/8" O.D. x .134" wall galvanized steel tubing rails with rung loops fabricated from 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing. Each horizontal loop ladder assembly shall be an all

welded construction. The assemblies and legs shall be coated after fabrication with a custom formula of TGIC polyester powder in conformance with the specifications outlined herein.

OVERHEAD TREE CLIMBER

Shall be fabricated from 1-5/8" O.D. x .083" (14 gauge) wall galvanized steel tubing upright and step rungs of 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing. The assemblies shall be coated after fabrication with a custom formula of TGIC polyester powder in conformance with the specifications outlined herein.

OVERHEAD CLIMBER ACCESS LADDER

Shall be fabricated from 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing with horizontal members fabricated of 1-1/16" O.D. x .075" (15 gauge) wall galvanized steel tubing. The ladder assembly shall be an all-welded construction and coated after fabrication with a custom formula of TGIC polyester powder coating in conformance with the specifications outlined herein.

Crawl Tubes:

ROTATIONALLY MOLDED CRAWL TUBES

The Crawl Tube with 1/4" nominal wall thickness tube shall be rotationally molded linear low-density polyethylene conforming to the specifications outlined herein. Tube sections shall be molded so that all hardware connections are on the outside of the tube. The connection of multiple tube sections shall be an external overlap connection. The entrance panel shall allow access to the crawl tube at an accessible height of less than 8" as specified in the American with Disabilities Act (ADA).

Panels:

DRIVERS PANEL

Driver's panel shall be manufactured with UV-stabilized color impregnated linear low density polyethylene and shall conform to the rotationally molded specifications outlined herein. The panel wall shall have minimum 0.25' wall thickness

ALPHA MAZE

ALPHA MAZE - Panel shall be color-impregnated linear low density polyethylene and shall conform to the rotationally molded specifications outlined herein. HDPE in 30" diameter opening of the panel shall be made from 1/2" thick (solid) high density, UV-stabilized and color impregnated polyethylene.

GADGET PANELS

GADGET PANELS

Panel shall be color-impregnated linear low density polyethylene and shall conform to the rotationally molded specifications outlined herein. Gadgets shall be made from 3/4" thick (solid) high density, UV-stabilized and color impregnated polyethylene. Some Gadgets also include Chrome Plated Steel or Polycarbonate.

Ramps/Connecting Walks:

RAMPS/CONNECTING WALKS WITH 6" AND 12" INCLINE

The ramp shall be fabricated from punched steel in conformance with the specifications outlined herein. The ramp frame shall be fabricated from 3/8" x 3-1/2" hot rolled steel. The ramp section shall be a one-piece welded assembly finished with the matte PVC coating per the specifications herein. Handrails shall be fabricated from 1-5/16" O.D. x .083" (14 gauge) wall galvanized steel tubing and 2" square x 3/16" wall tubing outer frame, with vertical members fabricated of 1- 1/16" O.D. x .075" (15 gauge) wall galvanized steel tubing. The handrails shall be an all welded assembly and shall be coated after fabrication with a custom formula of TGIC polyester powder in conformance with the specifications outlined herein.

Slides:

ZIP SLIDES (SINGLE & DOUBLE BEDWAY, AND RUMBLE & ROLL)

Zip Slides and hoods shall be color impregnated linear low-density polyethylene and shall conform to the rotationally molded specifications outlined herein with double wall construction molded to a minimum .25" wall thickness. Single bedway Zip Slides shall have a minimum inside bed width of 17.5" while double bedway Zip Slides shall have a minimum inside bed width of 16.5" on each bedway. Outside rails are at least 7" high when measured from the centerline of the bedway surface. The angle of descent shall be no greater than 50°. Each Zip Slide works in conjunction with a rotationally molded hood that has an integrated cross bar which force users to a seated position. The exit section of the bedway shall have a minimum 40" radius for a smooth transition from the slide chute to the run-out area. The run-out shall be angled at a maximum of 4° with an integrated drain at 5° to reduce pooling of water. Zip Slides bolt directly to the deck and to the slide hood.

SWERVE SLIDES (SINGLE & DOUBLE)

Swerve Slides and hoods shall be color impregnated linear low-density polyethylene and shall conform to the rotationally molded specifications outlined herein with double wall construction molded to a minimum .25" wall thickness. Single bedway Swerve Slides shall have a minimum inside bed width of 17.5" while double bedway Swerve Slides shall have a minimum inside bed width of 16.5" on each bedway. Outside rails are at least 7" high when measured from the centerline of the bedway surface. The angle of descent shall be no greater than 50°. Each Swerve Slide works in conjunction with a rotationally molded hood that has an integrated cross bar which force users to a seated position. The exit section of the bedway shall have a minimum 40" radius for a smooth transition from the slide chute to the run-out area. The run-out shall be angled at a maximum of 4° with an integrated drain at 5° to reduce pooling of water. Swerve Slides bolt directly to the deck and to the slide hood.

American Society for Testing and Materials (ASTM)

We don't just follow the rules; we help create them. Several key people at GameTime, including our Manager of Compliance and Standards, serve on the ASTM committee that sets the standards for the entire playground industry. GameTime products conform to that standard, F1487-07a¹, the Standard Consumer Safety Performance Specification for Playground Equipment for Public Use.

CPSC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to inform the public of current product safety performance information and recommended practices. The CPSC first published their guidelines for public playgrounds in 1981 and have updated their publication since then. The current CPSC Handbook for Public Playground Safety, publication #325, is an excellent guide for owners and operators of public play environments.

ISO 14001 Certified

ISO 14001 also known as green certification specifies the requirements of an environmental management system. An EMS is a systematic approach to handling environmental issues within an organization.

IPEMA Equipment Certification

GameTime is one of the founding members of IPEMA, and several of our people serve as board members, committee members and chairpersons of the association. In the interest of public playground safety, IPEMA provides a 3rd party certification, to validate conformance to established standards. Our use of the IPEMA seal is your assurance that GameTime has received written validation from an independent lab that the products associated with the seal conform with the ASTM standard, as well as the Canadian CSA standard CAN Z-614. A list of our validated products may be found on the IPEMA website, www.ipema.org.

IPEMA Surfacing Certification

GameTime's GT Impax product provides you with the assurance that our surfacing has been certified as compliant to the appropriate ASTM standard. In the interest of public playground safety, IPEMA provides a third party certification to validate a manufacturer's conformance to the ASTM F-1292-99 Standard Specification for Impact Attenuation of Surface Systems Under And Around Playground Equipment.

The use of the IPEMA Certification Seal displayed above signifies that the manufacturer has received written validation from the independent laboratory that the product associated with the use of the seal conforms with the requirements of ASTM F1292-99. A complete list of our validated products may be found on the IPEMA website at www.ipema.com.

ADA

GameTime is the only manufacturer to meet accessibility guidelines on all of its pre-designed PowerScope Plus and PrimeTime playground plans. We also recommend accessible surfacing options. Access Board (The United States Architectural and Transportation Barriers Compliance Board) has completed Accessibility Guidelines for Play Facilities as set forth in the Americans with Disabilities Act of 1990. For more information, log on to www.access-board.gov

ISO 9001:2008

GameTime was the first playground manufacturer to obtain the ISO9001:2000 standard. In order to obtain this certification, the company's manuals, policies, objectives and quality procedures are closely examined during a surveillance audit by ISO representatives. Strict attention is paid to policies and procedures in manufacturing, communication channels, system monitoring, customer relations and order processing, which are reviewed for consistency and standards. Companies who meet the standard are awarded the ISO designation.

TUV

An international organization that is a European Union Notified and Competent Body, providing testing and certification. Use of the TUV seal demonstrates that products have passed a comprehensive testing procedure based upon the European Harmonized Standard for Commercial Playground Equipment, and that the GameTime plant is regularly monitored by TUV. Contact your international GameTime distributor for complete EN 1176 compliance details.

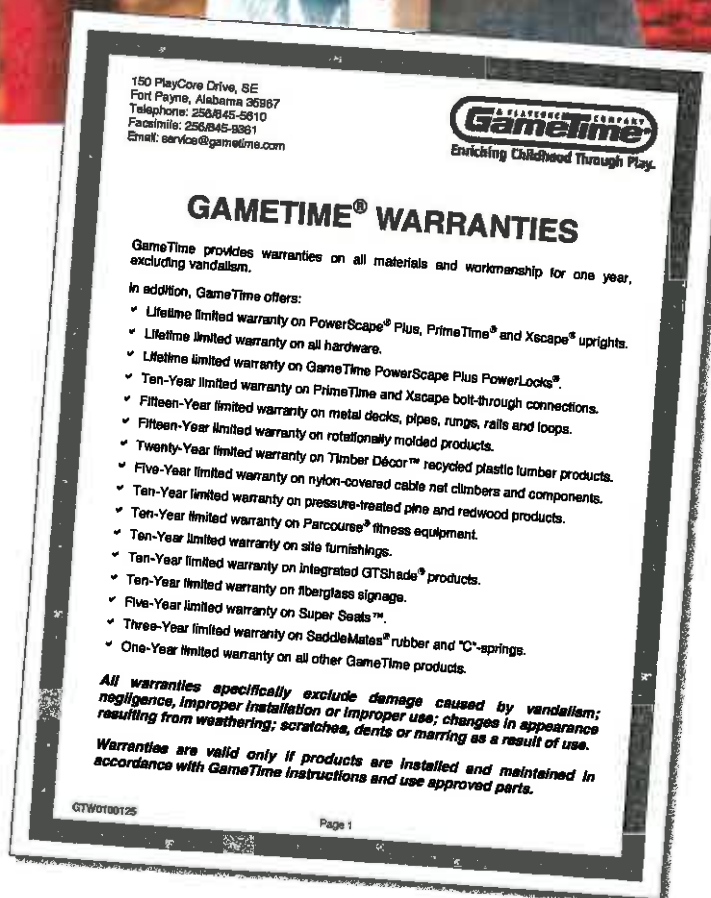

The Industry's BEST Warranty

GameTime offers you peace of mind with the best, most all encompassing warranties in the industry.

We want to assure you that we are part of your community playground long after the sale is made. Our quality is legendary, and we stand behind our products with one of the best warranties in the business and a level of customer service that assures you that your needs will be met. For complete Warranty information, consult your GameTime sales representative.

- Lifetime limited warranty on PowerScape®, PrimeTime®, and Xscape® uprights.
- Lifetime limited warranty on all hardware.
- Lifetime limited warranty on PowerScape PowerLocks®.
- 15 Year limited warranty on pipes, rungs, rails, metal decks and loops.
- 15 Year warranty on rotationally molded KidTime and GameTime products.
- 10 Year limited warranty on PrimeTime bolt-through connection.
- 10 Year limited warranty on Parcourse® fitness equipment.
- 5 Year limited warranty on SuperSeats™.
- 3 Year limited warranty on rubber or C type springs used on SaddleMates®.
- 1 Year limited warranty on all other GameTime products.

DISCUSSION – Final report on 2016 Children’s Holiday party

COMMISSION REVIEW

- ☐ Report
☒ Discussion
☐ Seeking Feedback

Meeting Date:

January 10th 2017

BACKGROUND

The 40th Annual Children’s Holiday Party was held on Sunday December 11th, 2016. Attached is the final report and copies of the donations/expenses.

REQUEST FOR FEEDBACK

Feedback from the Commission on the event is welcomed.

STAFF RECOMMENDATION

N/A—Discussion Only.

To: Parks and Recreation Commission
From: John Fenske, Interim Superintendent of Parks & Recreation
Re: 2016 Children's Holiday Party -- Final Report
Date: January 2017

This is the final report on the 40th Annual Children's Holiday Party that was held on December 11th 2016.

A big thank you goes out to the Commissioners for another great event. Also, a special thank you to Laurie and Doug, for not only purchasing the gifts, but also making sure that the donated food made it to HCS Family Services after the party. The leftover gifts were split between HCS and Toys for Tots.

I would also like to thank Catherine, Carol, and Administrative Intern Tiffany Kolodziej for helping load everything from the Village hall and getting it over to the High School. Also, Catherine for braving the weather and getting the food from 7-11 and Chicken Basket.

I would also like to thank Village Trustee Sue Berglund for her help in securing donations from Tommy R's and Costco, and in finding a Santa.

A big thanks goes to Officer Dan Polfiet for stepping in and filling Santa's boots, and "Santa's Helper" Tiffany Kolodziej, for her help with the kids seeing Santa.

Again, this year we promoted the event on the Village website through a community postcard mailing, an ad in the Willowbrook Post, and on banners at two of the parks. There were 126 kids pre-registered for the event, with 127 showing up (see age breakdown at the end of this report).

The food and beverage contributions from Chicken Basket, Chishack, Chick-fil-A, Seven Eleven and Tommy R's Catering were a big hit. There was a nice variety of food, and I don't think anybody went home hungry. The leftover food was split up and brought to the PD, public works, Tri-State FD, the library, and the school.

I received many positive reviews in regards to Keri Stockton, the face painter, and what a great job she did.

I also got a lot of positive comments about Jeanette Andrews and her performance. The best being the little girl who said she, "...wanted to become a magician to make her little brother disappear!!"

When I got into the office on the following Monday, the receptionist said there was a 5-minute voice message about the party. It was from a mother who recently moved to Willowbrook saying that her kids had a wonderful time at the party. She could not believe that it was free, considering that the town she moved from had a smaller party, to which they charged for attendance.

Walgreen's ability to take and print the pictures on the day of the event was great. It was nice to have the pictures ready for people to take home when the party was over. Wayne was a big help again this year with securing the gifts.

There were 17 young adults from both the Hinsdale South National Honor Society and Key Club who volunteered their time. They helped with every aspect of the party, from set up to take down. The girls that helped with the crafts were great. I sent an email to each group's coordinator, thanking them for their help.

Donations (see attached for list)

There were 39 total contributors this year, 17 of which were new. We took in a total of \$3370.00 from 25 different contributors. We had 6 businesses donate food or drinks: Chishack, 7-11, Tommy R's, Chick-fil-A, Chicken Basket & Costco

We received a number of gift certificates, ranging in value from \$15 to \$250.00. These items were raffled off to the parents before we handed out the gifts.

The thank you letters were mailed to all the businesses who donated to this party on Tuesday December, 13th or Wednesday December 14th. (see attached copy)

Expenses (see attached for breakdown)

Total expenses this year were \$5209.46. When subtracted from the donations, we were \$1839.46 in the red. Of the new expenses, three of them were new this year: purchase of a Santa Suit (\$249.95), inclusion of a face painter (\$200.00), and the blanket giveaway (\$1547.56). Additionally, due to the double-booking of the theater at Hinsdale South High school and any confusit, we were not charged for the rental of the high school.

2016 Holiday Party attendance figures

Age	Boys	Girls	Total
Under 1	6	4	10
1-2	5	5	10
3-4	16	14	30
5-6	18	18	36
7-8	10	9	19
9-10	4	4	8
11+	7	7	14
TOTAL	66	61	127

There were two possible factors for the decrease in attendance over last year:

- 1) the weather
- 2) Burr Ridge was running their "Polar Express" event on the same day, and this year ran two trips, instead of one.

Again, thanks to everyone who came out and helped. Except for a few "glitches" I think everything went well.

On behalf of the Village of Willowbrook Parks & Recreation Commission, I would like to thank you for your generous donation towards our 40th Annual Children's Holiday Party. The party was held on Sunday, December 11. There were close to 130 children and their families present, who enjoyed an afternoon of Holiday fun, crafts, entertainment and a visit from Santa.

It is with the continued support of the local businesses like yours that help make these events possible.

Thank you again,

John Fenske

Interim Supt. of Parks & Recreation
