Since 1994, the Village Board has established by resolution suggested hours for Halloween "trick or treat" activities. If approved by the Village Board, staff will distribute the information through local newspapers, the Village website ([www.willowbrookil.org](http://www.willowbrookil.org)) and our school partners, Districts 62 and 60.

# 2018 Census of State and Local Law Enforcement Agencies (CSLLEA)

Conducted by:  
Bureau of Justice Statistics, U.S. Department of Justice  
RTI International  
Police Executive Research Forum

Law enforcement agencies (LEAs) face unique challenges in areas such as staffing, number and types of functions performed, and budget allocation. An important step to addressing these challenges is to understand how these issues may have changed over time and how LEAs are responding to changing demands. The Bureau of Justice Statistics (BJS) will use the 2018 Census of State and Local Law Enforcement Agencies (CSLLEA) to provide critical information to LEAs, policy makers, researchers, and other stakeholders. Through the 2018 CSLLEA, LEAs will be asked to help build a complete enumeration of the Nation's state, county, local, and tribal LEAs. This national roster of active publicly funded LEAs will also be used to select participants for other data collections.

BJS has administered the CSLLEA regularly since 1986. **The next CSLLEA will begin full administration in fall 2018.** The brief questionnaire will go to approximately 20,000 state and local LEAs. Data will be used to produce estimates describing the staffing and functions of these agencies by type and size.

## CSLLEA Survey Content

During the 2018 CSLLEA survey, agencies will be asked questions on the following topics:

- Type of agency
- Operating budget
- Functions performed, including:
  - Patrol and response to calls for service
  - Criminal investigation
  - Traffic and vehicle-related enforcement
  - Detention of inmates
  - Providing services to courts
  - Forensic services
  - Task force participation
  - Public safety services
  - Other specialized functions
- Number of sworn and civilian personnel by full-time or part-time status
- Number of sworn officers by gender
- Number of sworn officers by primary duty

In addition to providing a snapshot of the current state of law enforcement, BJS will compare the results of the 2018 CSLLEA with those from prior CSLLEA administrations to determine how LEAs have changed over time. Information collected through the CSLLEA can provide localized estimates of personnel counts and functions, statistics that are essential for better understanding the landscape of American policing. National findings from the CSLLEA will be made available to law enforcement personnel, researchers, lawmakers, and other stakeholders in 2020.

The CSLLEA is part of the Law Enforcement Core Statistics (LECS) program, which coordinates a group of LEA surveys conducted by BJS. Also included in the LECS is the Law Enforcement Management and Administrative Statistics (LEMAS) core survey and a new series of supplemental LEMAS questionnaires on specialized topics such as body-worn cameras. Currently, BJS is working with RTI International and the Police Executive Research Forum to administer the LECS surveys.

## CSLLEA Schedule

### Fall 2018–Spring 2019

- BJS will send a letter inviting LEA chief executives to participate in the CSLLEA
- Chief executives invited to participate in the CSLLEA can designate a point-of-contact who will complete the survey
- RTI will provide the chief or point-of-contact with access to the survey website and collect the survey data

### Spring–Fall 2019

- Data quality will be assessed
- Results will be processed and analyzed

### Spring 2020

- BJS will publish a report on the findings
