Administrative Adjudication for Municipalities

Administrative adjudication allows a municipality to gain greater control of the outcome of tickets issued for local ordinance violations. Conducting local hearings can help expedite the resolution, reduce the payroll cost for employees that would otherwise attend district court cases and allows the full amount of fines revenue to be recognized by the municipality. Historically when a subject receives a violation (depending on the type of violation) they can either pay the fine or elect to have their case heard in court. In some instances there is no prepayment option; they must appear in court. In district court, a common occurrence for cases is a continuance; not once, but multiple times which greatly extends the time between issuing the violation and a resolution.

Cases continued multiple times contribute to higher payroll cost for officers and the municipality sees little revenue.

Illinois State Statute allows Home Rule and Non Home Rule municipalities to adopt an ordinance for administrative adjudication; the ability to conduct a local hearing for certain violations. These pertain to Standing, Parking or Condition of Vehicles, Local Ordinance, Administrative Tows and Building Code violations. By adopting and following the guidelines set forth by state statutes, any municipality may conduct local hearings to adjudicate these infractions.

Some basics steps required by a municipality are:

- Adopting an ordinance to conduct administrative adjudication of the particular violations corresponding with State Statutes.
- Defining the fine structure, any escalation of fines and related administrative fees.
- Determining the venue where hearings will be conducted.
- Selecting a hearing officer to preside over the cases.
- Identifying the appropriate staff as defined by state statutes.

Note: Hearing officer requirements are identified in the appropriate State Statutes.

Refer to the following statutes for the guidance and corresponding offenses:

1. Parking and Equipment – 625 ILCS 5/11-208.3

2. Local Ordinance (Non-Home Rule) – 65 ILCS 5/1-2.2
3. Building Codes (Non-Home Rule) – 65 ILCS 5/11-31.1
4. Local Ordinance & Building Codes (Home Rule) – 65 ILCS 5/1-2.1

To view the most current Illinois Statutes, please visit www.ilga.gov and select the link entitled Illinois Compiled Statutes.

A Hearing officer's power and duties will consist of:

- Presiding at an administrative hearing to determine whether a code violation exists.
- Hearing testimony and accepting evidence from the code enforcement officer, the respondent, and all interested parties relevant to the existence of a code violation.
- Preserving and authenticating the record of the hearing and all exhibits and evidence introduced at the hearing.
- Issuing and signing written finding of fact, decision and order stating whether a code violations exists
- Imposing penalties consistent with the applicable code provisions and to assess costs reasonably related to instituting the proceedings upon finding the respondent liable for the charged violation. The hearing officer has no authority to impose a penalty of incarceration.

A distinct advantage of administrative adjudication for Parking and Equipment violations is the officer's signed ticket shall be prima facie evidence of the violation's existence; therefore the officer is not required to be present at these local hearings. This will directly equate to a reduction in payroll and potentially reduce overtime for officers spending time at court.

Many municipalities treat local ordinance violations in a similar fashion. However, IL statutes specifically state the violator will have an opportunity to cross examine opposing witnesses. If an officer who writes the violation is not present and a defendant wishes to question their accuser, it would be appropriate to grant a continuance and schedule the officer to be present at the next hearing. Lack of preparation on the part of the accused is not a defense or justification for a continuance, per state statutes.

An advantage related to building code violations is the opportunity for the municipality to work directly with property owners to formulate a plan that is mutually beneficial and arrive at a timely resolution.

A final consideration is revenue recovery. The opportunity to capture more revenue is clearly available since ALL fine revenue, administrative fees and court costs are retained at the municipal level.

How the process works:

The events listed below are not necessarily in the order they must be completed, however the steps must be completed to successfully implement the adjudication process.

- Adopt the appropriate ordinance(s)
- Identify fines and associated fees
- Create/Revise citations
- Determine hearings location, dates and times
- Interview and hire a hearing officer.
- Schedule training for the hearing officer if this is the first time presiding over local hearing

Municipal Systems, Inc. developed software in 1991 and has continued to enhance the product to capture all relevant information required to comply with State Statutes. Once the software is configured, the process becomes highly automated from the point of entering a violation in the software. The MSI software is web based, meaning there is no server that must be purchased, no annual hardware maintenance agreement needed and no database license to contend with; we provide the backend hardware infrastructure as part of our hosted environment.

The initial set-up allows the software to be configured so commonly used fields will have drop down selections to easily populate the appropriate fields, streamlining data entry. Typically this information consists of:

- The violations that will be written and whether any prepayment is allowed (some Local Ordinance/Building Code violations will be "Must Appear").
- Inspectors and Officers Name/ID number
- Hearing dates and times.
- Location where the offenses occurred and/or Property Identification number

Entering violations in the software can be accomplished a variety of ways. Violations may be entered by code enforcement and/or police officers on location using laptops in a squad car or code enforcement vehicle. The actual ticket would be printed on a thermal printer installed in the vehicle.

MSI also offers a hand-held computer option, using a Smart phone; this option is only available for parking and compliance tickets today. The Smart phone operates in a live environment using a standard cell plan so once a ticket is saved it is immediately added to the database. The Smart phone ticketing app allows for 2 pictures to be captured for each ticket which are seamlessly attached to the record for evidence. This option also requires a small, portable thermal printer for printing the citation.

The final method is manually entering tickets that were handwritten from ticket books. Once a citation is saved, regardless of where it is entered, it will be immediately added to the database. Once a ticket is

entered, the violator may come to the municipality and pay or they can use VPCI (Violations Payment.com), MSI's integrated on-line credit card payment option.

System parameters are established during the initial set-up to specify the number of days before the system will generate a hearing notice for parking & compliance tickets or in the case of local ordinance and building code violations, a summons. For example, if a tall grass violation has a prepayment fine amount of \$100 and the municipality wishes to extend to the property owner 10 days to pay, the summons will not print until the payment date has passed and no payment has been recorded in the software.

For a local ordinance or building code violation where no fine amount is specified, meaning the subject must appear at a hearing, a summons will be generated.

The hearing documents generated from the software will contain relevant information about the violation(s) committed, the date, the time, the location where violation occurred and they will contain the hearing location, as well as the date and time of the hearing.

Hearings

At the date and time of the hearing, we recommend using the electronic hearing check-in feature available in the software. By using the electronic check-in, the clerk can search the name or ticket number for the person checking in, mark that they have arrived and each case will be sorted based on who checked in first, second and so on. The hearing officer (or an assisting clerk) can select the "court room view" and see the subjects/cases that have checked in and then call each case one at a time.

Respondents that don't appear will typically be found liable by default and fined based on the fees adopted into the municipal ordinance.

The related Final Determination or Finding, Decision and Order (FDO) documents can be printed and handed to the subject (served by personal service) at the conclusion of each case or mailed. State Statutes specify that Non-Home Rule municipalities must serve the F.D.O. in the same manner as the summons, which is by first class mail.

When a respondent is found liable, the fine imposed becomes a debt owed to the municipality. If the debt goes unpaid for more than 35 days, the timeframe allowed for an Administrative review, it will become collection eligible. The MSI software will automatically create the collections file when an operator selects the "export to collections" button. MSI recommends using its affiliated collection agency, MCSI (Municipal Collection Services, Inc.) which has been providing collection services to government agencies since 1992.

Training and Implementation

Municipal Systems provides all the relative training and documents required to implement the administrative adjudication process. These include:

- Model ordinances
- Process and procedural training
- Software training
- Attendance at first hearings
- On-going support

*Consulting services and training are included in the MSI software proposal.

Summary

Administrative adjudication has been in place since early 1990's and is a widely accepted method in Illinois. Each municipality should evaluate their volume, cost and the benefits to determine if this process is suitable. Dear Chief Schaller,

Please accept my sincere thanks for the time Lauren Kaspar spent helping to conduct our CALEA on-site mock assessment on November 2, 2018. I realize that it can be difficult to take away from daily duties in order to spend time assisting another agency, and we appreciate the help.

The comments and recommendations provided by Lauren and the rest of the team were greatly appreciated. I am confident that the efforts put forth by the mock assessment team will contribute to our successful review in our initial CALEA accreditation endeavor.

On behalf of the Bensenville Police Department please accept our gratitude for the assistance we received.

NARCOTICS AND CURRENCY INTERICTION TASK FORCE

Office of the Director

December 18, 2018

Deputy Chief Kaspar,

As you are aware, on 12/17/18, Agents of the Illinois State Police Narcotics and Currency Interdiction (NARCINT) Task Force were involved in a narcotics trafficking investigation in the area of Cass Avenue and 63rd Street. During the course of the investigation, seventy (70) kilograms of cocaine was seized and one (1) subject was arrested and charged with Possession of Cocaine with Intent to Deliver, a Class X Felony.

When NARCINT Agents contacted the Willowbrook Police Department for assistance, your Officer's were quick to respond and offered your Police Facility as a secure and comfortable area for us to process evidence and conduct interviews. Many of our investigations are conducted in Cook County, so our Agents are unfamiliar with the post-arrest procedures in DuPage County. Your Officer's were very helpful in making the process quick and easy.

Please pass along our gratitude to Officer Lavalley #512, Officer Erdmann #511, and all of the Officer's on midnight watch. Thank you for your continued support of NARCINT.

Sincerely,

Deputy Director Tim Wherry

Dear Chief Schaller,

The Hinsdale Police Department's Open house on October 13, 2018 was a huge a success. This popular Community event was successful because of two of your employees, Lori Rinella and Laurie Schmitz who took the time to attend and support our department. Lori and Laurie answered many questions from kids and parents, handed out badges, stickers, pencils and other great swag. Their display table was one of the most popular tables at our event.

It is great that police departments can assist each other in events like this for the benefit of the community. Thank you for your support and please let Lori and Laurie know their participation was greatly appreciated.

Sincerely,
Hinsdale Police Department
